

The Southern California Drug
Metabolism Discussion Group
Presents:

J. Ernest Simpson, Ph.D.

Professor Emeritus
Chemistry Department California State Polytechnic
University, Pomona, CA

"Chemistry of Wine"

Presentation Synopsis:

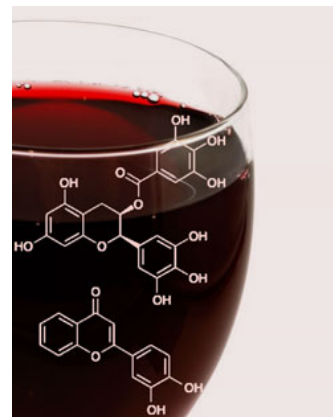

The talk will include an overview of wine and wine making and more detailed descriptions of the chemical composition of grapes and wine, laboratory methods for analysis of grapes and wines, sensory and organoleptic methods used for wine, the role of tannin and other phenolic compounds in wine, and some potential health aspects of wine. The talk will be combined with a "component and varietal analysis". During the component analysis, the audience will be given a reference wine sample with known levels of components such as acid, sugar, alcohol, etc. and then "unknown" samples in which one or more components have been increased by a known increment. During a varietal analysis a representative number of white and red wines will be compared.

Tuesday, October 28, 2014

Registration/Appetizers begins: 5:30 pm
Presentation/Wine begins: 7:00 pm

Location: Knobbe, Martens, Olson & Bear LLP
12790 El Camino Real
San Diego, CA 92130

Price: \$20 Registration (includes appetizers and wine)
No one under the age of 21 will be admitted

The SCDMDG was established in 2003 as a forum for Southern California scientists working in drug metabolism in both academic and industrial settings to meet and discuss issues and share information for the public good.

Seating is Limited— Please Register Early to Guarantee Your Attendance!
To Register for SCDMDG – October 28, 2014 send payment with this form to:

☐ Mail: 5310 Eastgate Mall, San Diego, CA 92121

*\$20/person in Advance or at the Door. Please make **CHECKS** payable to SCDMDG.*
